PHILADELPHIA, SEPT. 17.

THE VICTOR OF CHAMPLAIN.

From the New York Gazette Sept. 16.

COM. MACDONOUGH—the Hero of Champlain, says a correspondent, is a native of the state of Delaware, and is about 28 years of age. He entered early in the service of his country, in which he has distinguished himself for science and bravery. At the siege of Tripoli, he was a midshipman under the gallant DECATUR, and was one of the brave volunteers who destroyed the frigate Philadelphia and the Turkish gun boats. His gallantry on this occasion raised him in the estimation of his commander, who recommended him to com. PREBLE who promoted him. Alive to glory, and having before him many illustrious examples of American naval heroism, he has eagerly sought every opportunity to bring the enemy on lake Champlain to action. He has succeeded—and his good fortune has placed him on the same proud eminence which had hitherto distinguished the Hero of lake Erie. When the soul cheering news of com. MACDONOUGH's capture of the whole British fleet, that reached this city, it was received with an enthusiasm of rapture, to which no language of ours can do justice. The The patriotic sentiments of joy which it called forth, will be re-echoed from one end of this vast continent to the other—and com. MACDONOUGH and his BRAVE COMPANIONS in arms, will have established their claim to the most lively approbation and gratitude of the nation.

MR. WIDGERY—TURNED.

We understand this gentleman had, with his family and goods, got 4 miles into the interior for a place of retreat, when a cavalcade was sent from Portland with a command, that he should immediately FACE ABOUT *and march back* —that as it was *his* pleasure to *vote* for the WAR, it was *theirs* that he should *help* fight the BATTLES.

[*Salem Gaz.*

CONGRESS

It seems is to meet at the Patent office. A fine practical sarcasm this upon their crooked and ridiculous policy. Instead of pursuing the paths marked out by experience—instead of consulting the good of the nation in the modes approved by all wise legislators—they tried new schemes of policy which have, as might be expected, brought the country into the depths of calamity, and themselves from those spacious and elegant Halls, the appropriate seats of legislation, to the narrow confines of the Patent office, to sit, surrounded by thousands of ingenious machines, very pretty to play with, but totally unfit for the purposes for which they were invented. There you may find *chronometers*, designed to move without weights or springs—*Looms* and *spinning ginnies* made to work without hands—*weathercocks* to stand in the chimney corner—*guns* to fire without loading—miniature *torpedoes*, and thousands of other *jim cracks* which have first cracked the brains of their wise inventors, and then brought them to poverty. In the same building you may find the grand council of the nation, surrounded by the mournful ruins which their own cunning inventions have produced.

FOREIGN.

LONDON, JULY 11.

The emperor Alexander, when in this country, paid a visit to Madame Moreau, the widow of the unfortunate general: he remained with her near one hour and a half, and, when retiring, said to her, that he had granted to her 100,000 roubles, to be paid on her receipt on his bank, 40,000 ditto a year, the rank of Dame du Portrait, the Order of St. Catharine; also 6000 roubles to her daughter, and the title of Demoiselle d'Honneur to the empress.

Louis XVIII. has been graciously pleased to name Colonel Rapatel, (brother to the unfortunate colonel Rapatel, aid-de-camp to gen. Moreau, and afterwards to his imperial majesty of all the Russias, killed at Fere Champenoise, when summoning the French army to surrender) to the King's Regiment of Dragoons. The remainder of his brothers have received, each of them, marks of approbation of the late Rapatel's conduct from their legitimate sovereign.

Extract of a Letter, dated Minorca, May 29.

"Bonaparte is at Elba, and is very attentive to all our captains. I hope to see him before I go home. Capt. Usher, Capt. Tower, and some others, dine with him continually, and he talks of late events with great familiarity, and does not at all despond. He says he knows the Bourbons can never reign long, and he expects in a few years to be called back to the throne of France."

JULY 12.

It is said that an official communication from Lord Castlereagh has announced to the Catholics of England, through their Secretary, Mr. Jerningham, that his Majesty Louis XVIII. had ordered the restoration of the English and Irish establishments for education in France, with all the funds and property belonging to them, which had been sequestrated by the revolutionary governments, and retained by Bonaparte. These establishments consist of several extensive colleges at Paris, one at Donia, and minor schools at Louvain, Angers, Bordeaux, and Toulouse.

BOSTON, *Sept.* 14.

Extract of a letter from Bangor.

"About 9 o'clock this morning, 4 large ships with 7 barges full of men, came up the river and anchored opposite the town. About an hour after 400 militia marched up to the high grounds. A flag was sent on board to enquire the conditions of a surrender. The answer was, it must be unconditional, and we must in the first place supply them with 40 horses, furnish them with provisions, and receive the officers into private families.

The enemy's soldiery are tolerably civil, but there is nothing too bad for the sailors to do. They have emptied all the stores and many dwelling houses—they break the windows and crockery, and destroy every thing they cannot move. Some of our folks tried to run their own ships on shore—but the commander told them if they offered to move one of them he would fire the town.

There are 900 of them—we could not raise more than 400, of course we could only submit.

At the battle below, the troops were more numerous than the enemy. The British fired first, our troops threw down their guns and retreated in great confusion, especially the Democrats to a man. Such dear lovers of the war ought to have stood their ground. Our river is covered with vessels of all sizes in flames. We hear and talk of war, but know nothing of it till it is in sight.

We are all paroled prisoners of war. Gloom and distress rests on every face. Orington, the other side of Penobscot, is declared British territory."

Extract of a letter to the editors, dated Newburyport, Sept. 12.

"A gentleman arrived in town who left Bangor on Thursday. He informs that the property taken and destroyed amounts to about $ 60000. By agreement with the Selectmen, all the shipping at Bangor was to be delivered at Castine by the 30th Oct. or $ 30000 paid for its ransom. The enemy had all embarked on board his vessels at Frankfort. The English buried 9 of their people, killed at one place—ours did not exceed 5 or 6.

WASHINGTON CITY, *Sept.* 23.

Extract of a letter from a gentleman of this city, taken prisoner by the enemy when he left this place, dated Baltimore, Sept. 21, 1814.

"I have this morning arrived in a flag of truce from the British fleet lying at the mouth of the Patuxent, where they are taking in water. I was put on board the Royal Oak 74, Admiral Malcolm's flag ship. The night I was put on board the body of Gen. Ross was brought into the same ship, put into a hogshead of rum, and is to be sent to Halifax for interment. The body of Sir J. Parker is sent to England for burial. The two admirals Cockrane and Cockburn left the fleet yesterday morning in their flag ships—the former for Halifax.

The prisoners detained, and those taken at Baltimore, about 50 in number, are sent to Halifax.

Before I was liberated, a despatch vessel arrived in the Patuxent, bringing the information that our negociations are broken off, in consequence, they say, of the detention of some prisoners as hostages: still, it is said, Admiral Cochran gives it as his opinion, that there will be peace soon. Information by the same vessel states, that *several regiments* are on their way to America. She sailed from England on the 3d of August last."

NEW-YORK, *September* 21.

Latest from Sackett's Harbour.

Passengers in the steam boat from Albany state that Gen. Izard had embarked his army in boats and had left Sackett's Harbor. Some suppose he had gone up the Lake, others conjectured that he was bound to Kingston to co-operate with the fleet in the destruction of the great ship lately launched there. A few days will probably disclose his real destination. The prisoners taken on Lake Champlain were on their way to Greenbush, and it was expected they would reach there this day.

ST. LOUIS, *Aug.* 20.

An expedition has been preparing here some considerable time to visit the Indian villages; and from the preparations made we have a right to expect a decisive and successful campaign. As it ought to be, the destination of the troops is yet a secret—yet we believe the main body will move up the Mississippi while two small parties ascend the Missouri and Illinois, and ultimately concentrate at the Sac village on Rock river. From thence visit the Winebagoes and Folsavoines, and then destroy the *nest* at Prairie du Chien.

NASHVILLE, *Sept.* 14.

An express arrived here this day with the following important information:

H. Q. 7th military district, Mobile, Aug. 27, 1814.

SIR—By an express sent from Pensacola as well as from Antonia Callina, a citizen who left there yesterday, bringing with him the pass of col. NICHOLAS, the British officer commanding there, for his protection, I have received information which may be implicitly relied on, that 3 British vessels the Hermes, Orpheus and Carvian, arrived at Pensacola on the 24th, and on yesterday disembarked an immense quantity of arms, ammunition, munitions of war & provisions, and marched into the Spanish fort between 2 and 300 troops. That 13 sail of the line with a large number of transports are daily expected at that place with 10000 troops.

The Havanna papers received there state that 16 sail of the line had arrived at Bermuda. It is currently reported in Pensacola that the Emperor of Russia has offered his Britannic majesty 50000 of his best troops for the conquest of Louisiana, and that the Mobile territory will fall a prey to the enemy before the expiration of one month. Spain is said by a secret treaty to have ceded Pensacola to G. Britain.

You will perceive the necessity of being on the alert, and taking time by the forelock. I have therefore to request that you without delay, caused to be organised, equipped and brought into the field, the whole of the quota of the militia of your state, agreeable to the requisition of the war department of the 4th July last. Col. You will have them furnished with all the arms within your reach. Those who cannot be furnished by you, will receive them here, but reliances must not be had on that if to be avoided.

I am respectfully,
Your obed't sev't.

NEW ORLEANS, Aug. 18.

Piracy and Murder.

We have so often mentioned the Barataria thieves in this Gazette, that we fear the subject has become nauseous to our readers; and well it may, for not an act of smuggling, piracy or murder is perpetrated by them, but is as well known to every man in society as to ourselves. Yet the disgrace and the mischief continue and increase, and God knows how soon Lafitte may remove the seat of his empire from Barataria to New Orleans. Scarcely a week passes but we hear of a vessel being taken, belonging to powers at amity with the U. S. Within the last month we have received accounts of 2 Russian ships having been captured, a day appointed for the sale of their cargoes, and numbers of people from this city attending the auction.

It is now 3 years since the establishment at Barataria was first formed, during which, at a moderate calculation, they have taken 100 vessels, Americans as well as neutrals; yet not an individual of the crews has escaped to bear witness against them; *dead men tell no tales!*—And it is probably true, as some have suggested, that 1500 hundred human beings have been murdered to make assurance doubly sure that these miscreants should escape the hand of justice. But enough! shame and indignation will permit us to go no further. The crisis cannot endure much longer; it must soon be decided whether we shall still constitute an integral part of the American Union, or be compelled to swear allegiance to John Lafitte.

[*N. O. Gaz.*

[Since the date of the above, Lafitte has been apprehended, and is now in prison in New Orleans.

LOSS OF GUN BOAT No. 146

This boat, sailing master WOLFENDON, commander, was stationed at Ocracock—on Tuesday last, at 2 P. M. REDGREAV, master's mate, to extract a ball from a loaded musket, repeatedly struck the muzzle of the piece on the deck, the musket fired, the wad probably followed the ball through the deck into the magazine, which instantly exploded, and tore the boat into pieces. The crew consisted of twenty-eight persons, some of whom with the master, were on shore at the time of of the accident. Of those on board we regret to say, that eight lives were lost, and some others severely wounded.

THE PITTSBURGH GAZETTE.

WEDNESDAY, SEPTEMBER 28, 1814.

The President's Message, together with an account of the victories of Com. M'Donough and Gen. Macomb, were published in a Supplement from this Office on Saturday last.—If any subscriber has not received it, he will please send or call at the Office for one.

The Committee of Correspondence, to the Electors of Allegheny and Butler Counties.

In the course of the last three years, the condition of our country has been lamentably changed from high prosperity and happiness, to deep disgrace, disaster and degradation:—Our commerce has been annihilated—our projects of conquest defeated—our country invaded—our towns ravaged—our Capitol taken and burned:—The national treasury exhausted, while ruinous loans are made in vain to supply it:—Public credit sunk; although new and heavy taxes have been imposed:—The Banks stopping payment in specie, and thereby placing every debtor at the mercy of his creditor—and confidence between man and man every where destroyed.

To make our calamity complete, the militia are called out from every part of the nation for the defence of the seacoast as well as the Canadian frontier:—no provision for their subsistence or pay:—while an host of military officers, well paid and subsisted by the United States, are sauntering through the country, living at their ease, and unsuccessfully offering bounties to enlist recruits at enormous expense for the regular army—for an army presenting the prodigal spectacle of generals, colonels, majors, captains, subalterns, quarter masters, commissaries, contractors, forage masters, military agents and deputies, on a scale for an army of 75,000 men, when the real effective force in the field is less than 15,000.

In the midst of these misfortunes we have arrived at a point where we are allowed to pause and reflect—where we are at libery to decide whether we will stop on the brink of destruction, or hold on our desperate course till all be finally ruined by mismanagement and imbecility.

There is no remedy but a change of counsels, and of counsellors We cannot hope that those who have produced and supported the measures which affect us, will of their own accord retract, and condemn themselves. It is not in the nature of man to do so. If they believe themselves right, they must persist in their error. If they know themselves to be wrong, it is high time they were displaced.

Come forth then in your strength to the election! It is no longer the summons of a party—but the imperious call of duty to your country. Not a mere preference of men—but a necessary change of the measures. Not a canvass for office—but a manly effort for self-preservation.

The Gentlemen whose names we here-with offer to you, for the different stations to be filled, are all well known throughout the district. We are well persuaded there can be no objections to their ability, their integrity, or their zeal; and we do earnestly recommend to every elector, that all considerations, save the vital interests of our common country, be laid aside, and that a new representation be constituted, which under the blessing of heaven, may restore confidence, energy, and honorable peace to the United States.

From the Buffalo Gazette, Sept. 20

BRILLIANT ACTION,

At the batteries near fort Erie.

Copy of a letter from a gentleman who was in fort Erie, and witnessed the action, to the Editor, dated

"*Buffalo, Sept.* 19.

Sir,—Maj. gen. Brown, having previously made his dispositions for attacking the enemies batteries, in the vicinity of Fort Erie, sallied out with a considerable part of his force, in the afternoon of the 17th inst. The battle commenced between two and three o'clock, and continued for more than two hours, with considerable warmth, having in the course of the action to contend with the whole of Gen. Drummond's force—but our gallant little army, notwithstanding the enemy had the advantage of choosing his own position, and acting on the defensive, surmounted every obstacle; drove him from his works, and carried two of his batteries mounting five 24's and 18's, and one 68 pound carronade, spiked the guns, broke off the trunnions and destroyed the carriages and a great quantity of ammunition. Near four hundred prisoners fell into our hands; among whom are twelve officers. The enemy's loss could not have been less than *eight hundred* or a *thousand men* killed, wounded and taken, while ours, in comparison, was small.

"We have to regret the loss of Brig. General Davis, of the militia, Col. Gibson, of the 4th rifle regt. Lt. Col. Wood, of Engineers, and two or three other officers killed! Brig. Gen. Ripley, Col. Aspinwall, of the 9th, and Maj. Trimble, of the 19th, severely wounded; General Porter and several other officers slightly.

"The militia and a few Indians took the field with the regular troops. and it is said, deserve much credit for their bravery and good conduct during the action. The regular troops conducted with their usual gallantry. The enemy's batteries being destroyed (except one) the object of the sortie was effected, and our troops retired into their works."

For a week preceding the battle of the 17th, the weather was a continual storm of rain, and extremely difficult for military operations; some smart affairs of posts, however took place, between the contending armies at fort Erie: in one of which, our militia advanced within a few paces of the enemy's batteries. Our artillery occasionally played upon the enemy's advances with effect, and actually silenced one of their mortars. In the course of the week, many deserters, particularly from De Watteville's regt. came in, who have all, together with some 50 or more prisoners, been sent to Greenbush.

The enemy's forces have been very reserved during the week past. They were, however, gathering their strength and their means, and unquestionably contemplated another attempt on our works at Fort Erie. But, in this instance, as in almost every other, the stratagems of the enemy have proved *pits, into which has tumbled his high military reputation!* It is said, that in the ammunition depot of a new battery of the enemy, on which were mounted three 24 pounders, were one thousand rounds of fixed ammunition for those pieces: there can scarcely remain a doubt, that the enemy was preparing to open upon the Fort a most tremendous cannonade: but the enemy's calculations, if he had made any, have been frustrated by the timely action of the 17th—an action, which has wiped away every imputation from our militia, and added fresh laurels to the brows of the heroes of Chippawa—of the Falls—and of Erie—and has exhibited another proof that we are an enemy "not to be contemned" by Gen. Drummond.

Our militia, the riflemen and a few Indians, made the rear of the enemy, and captured a number of prisoners; while taking possession of a small party of the enemy, Gen. Porter's detachment were pressing on for other purposes, which placed the General in a critical situation: the enemy, who were about to lay down their arms, demanded the General to surrender: but Gen. P. with an unshaken presence of mind, had the address to keep the enemy at bay, while a party of his men came to his relief, and captuaed the enemy. Gen. Porter was wounded in the hand in a personal rencounter with a British officer. General Ripley was wounded through the neck, the wound is not considered mortal—he is represented to have conducted with much personal bravery.

While we exult at the bravery and good fortune of our gallant countrymen, we are called upon to mingle with this joy the deep regrets occasioned by the fall of the gallant Wood, and the brave, generous and accomplished Gibson.

Lieut. Col. Fisher, who led the right column of the enemy, in the attack on Fort Erie, on the 15th of August, and several other officers, were killed. Majors De Winter and Vilatte, are among the prisoners.

New-York, *Sept.* 18.

A gentleman from Burlington who left there on Wednesday, informs, that Governor Prevost, with his army had effected his retreat, without receiving any material check subsequent to Gen. Macomb's communication, which we published on Saturday.

Gen. Izard, and suite, had arrived at Sackett's Harbour, where 50 row boats carrying one long gun each, and capable of taking on board 150 men each, were ready. An attack on Kingston or Fort George was contemplated.

A despatch has arrived at Halifax, with sealed orders and despatches from the Prince Regent, to our government in 30 days passage.

DOCTOR HANDY'S,

WORM DESTROYING

LOZENGES,

A safe and efficacious Medicine for destroying and bringing away

WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almos every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums, which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above valuable Medicine is sold only by

J. P. & J. W. SKELTON,

at their wholesale and retail Drug Store, at the corner of Wood and Third Streets, Pittsburgh.

The Lozenges are efficacious in taking off all gross humors and eruptions, feverish complaints, and the safest and mildest purgative that can be used on any occasian.

A dose of this medicine given occasionally during the warm season, will prevent "the vomiting and purging of children"—a disorder which annually destroys thousands of the infant part of our citizens. BRIGHTON IRON WORKS

FOR SALE.

THIS elegant establishment consists of a *Furnace, Forge, Grist* and *Saw Mill*, together with extensive Coal, Store and Dwelling Houses, situate at the middle falls of Big Beaver creek, one mile from navigable water, 3 miles from the Ohio, 3 miles from the town of Beaver, and 28 miles from Pittsburgh. The Grist and Saw Mill are now usefully employed, and can be made very productive at a small expence. The Furnace and Forge are equal to any in the western country. The scite for water works comprises advantages equal if not superior to any on the Brandywine. The adjacent country abounds with ore, fuel and provisions, and the facility of transportation by water from the works to every part of the western country promises a sure and steady market for all its productions. The works are well supplied with first rate forge and furnace hands. The forge is now in operation, and the usual number of hands and teams are constantly employed in providing stock for a new blast, which it is intended shall take place about the 1st of March next, whether sold or not. The casting house is spacious and well suplied with flasks, patterns, and other requisite articles.—Possession can be given either before or after the first of March, as may be agreed upon, a fair price being given for the stock on hand.

Doctor CHISHOLM'S

Anti-Bilious Pills,

OF A QUALITY

Superior to any thing of the kind ever offered as a

GENERAL MEDICINE,

IN THIS COUNTRY,

NOW prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates.

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excrutiating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails; in which case, the dose may be increased according to the strength or constitution.

The *Dysentery*, *Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold ONLY in Pittsburgh, by

J. P. & J. W. Skelton.
